

mavconn::MAVConnInterface

std::enable_shared_from_this< MAVConnTCPServer >

mavconn::MAVConnTCPServer

```
classDiagram
    class MAVConnInterface["mavconn::MAVConnInterface"]
    class MAVConnTCPServer["mavconn::MAVConnTCPServer"]
    MAVConnInterface <|-- MAVConnTCPServer
```

The diagram illustrates a class hierarchy. At the top, there are two boxes: 'mavconn::MAVConnInterface' on the left and 'std::enable_shared_from_this< MAVConnTCPServer >' on the right. Below these, centered, is a box for 'mavconn::MAVConnTCPServer'. A horizontal line with upward-pointing arrows at both ends connects the two top boxes. A vertical line descends from the center of this horizontal line to the top of the 'mavconn::MAVConnTCPServer' box, indicating that it inherits from 'mavconn::MAVConnInterface'.
